WHERE THE  
MAGIC LIVES

The new DSP range from Audibax represents a leap in quality when it comes to the brand's active speakers. The high-quality internal DSP provides the possibility to modify parameters such as three-band equalization or select the playback mode according to the needs of the moment (Music, Live, DJ, Speech, etc.). Built with top-notch materials and components, the new Audibax DSP ensures durability and sound quality in all necessary applications, whether for live music or music playback.
