ABOUT US

Audibax is a Spanish dynamic and innovative brand driven by a passion for sound and lighting, including many kinds of showbusiness gear.

Our proactive mindset and pursuit of excellence drove us to create Audibax, with a vision to craft unforgettable experiences driven by the mission to deliver top-quality products without breaking the bank.

We prioritize attention to detail in every stage of product development and design, ensuring European quality control standards.

Since its establishment, our brand has maintained a strong determination to research and development, continuously raising the bar for our brand through exceptional product innovation. As a one-stop supplier, we offer comprehensive solutions to meet all your needs.

PRODUCT QUALITY

ENDURING DURABILITY

When it comes to product excellence, we go above and beyond at Audibax. It's our commitment to quality that sets us apart from the rest. Our products are more than just a purchase; they're a statement of enduring durability and perfection.

VALUE PRODUCTS

When you choose Audibax, you're not just choosing a product; you're choosing the ultimate sound & lighting experience. Get ready to be excited by the unbeatable combination of durability, quality, and value. Join us and let your love for the show boost with Audibax.

QUALITY MATERIALS

Crafted from only the finest materials, our speakers, lighting, and accessories are designed for the long haul. We understand that quality is not just a feature; it's our essence. That's why when you select Audibax, you're choosing a product that is sure to withstand the test of time.

AFFORDABLE PRICES

At Audibax, we firmly believe that exceptional quality should be affordable. You should not have to break the bank to experience the best. That's why we maintain highly competitive prices, providing you with the best product.

PS SERIES Standalone

Audibax power strips are designed to provide reliable power distribution in lighting and sound studios, and are also perfect for expanding power outlets in offices, production rooms, and home environments where a safe and tidy electrical installation is required.

Their robust construction with a riveted plastic housing ensures durability and safety, while the 45° angled side outlets prevent interference between large plugs.

Equipped with a 1.5 m H05VV-F cable, the power strips provide stable power for devices up to 3680W. The compact black design makes them a practical and stylish choice for any environment.

POWER STRIP

PSR SERIES

Horizontal 19" Rack
mounting

The Audibax PSR series of professional power strips is ideal for horizontal rack mounting.

Designed for professional audio, lighting, or studio environments, it allows for more efficient power distribution management and safer equipment connections.

Its aluminum housing ensures strength and durability, while the 2 m H05VV-F cable provides a stable and safe power supply up to 3680W.

PSR SERIES FEATURES

Product Code	Model	Ean Code	Outlets	Cable meters	Switch
10315839	PSR8	3666964341671	8	1,8	No switch
10315840	PSR8-SB	3666964102777	8	1,8	Rear On/Off
10315841	PSR8-SF	3666964978501	8	1,8	Front On/Off
10315842	PSR8-SB-USB	3666964334970	8	1,8	Rear On/Off +2 Front USB
10315843	PSR8-PwC	3666964181499	8	1,8	Front On/Off + Power twist
10315844	PSR16-2SF	3666964820916	16	1,8	2 x Front On/Off

PSR SERIES

Magnetothermic Power Strip

The Audibax PSR6-M-200 Power Strip is a professional 6-socket Schuko cable with integrated magnetothermic protection, designed for horizontal rack mounting.

Ideal for sound and lighting installations, or professional environments where electrical safety is paramount.

Its aluminum housing offers high strength and durability, while the 1.8 m H05VV-F (3 x 1.5 mm²) cable provides a stable and safe connection up to 3680W. A robust and reliable solution for protected and efficient power distribution.

PSR SERIES FEATURES

Product Code	Model	Ean Code	Outlets	Cable meters	Switch
10315853	PSR6-M-200	3666964639457	6	1,8	On/Off switch breaker

PC SERIES
Power Cable

The Audibax PC Power Cable series comprises power cables designed for the safe and reliable connection of electrical devices and power strips.

Made with H05VV-F (1.5 mm²) cable and a EURO-C13 plug, it support up to 3680W and a voltage of 220–250V.

It PVC insulation and VDE certification ensure safety and durability in both professional and domestic environments.

The range includes the 5-meter Audibax PC500-15 Power Cable and the 3-meter Audibax PC300-15 Power Cable.

PC SERIES FEATURES

Product Code	Model	Ean Code	Cable meters	Cable diameter
10315845	PC500-15	3666964901448	5 meters	1,5 mm²
10315846	PC300-15	3666964078867	3 meters	1,5 mm²

PCE SERIES

Power Extension Cord

The Audibax PCE series are Power Extension Cords, designed to safely extend the connection of your electrical devices and power strips.

Made with H05VV-F cable (1.5 mm² & 2.5 mm² diameters) and EURO-C13 plug (Schuko male - Schuko female), it support up to 3680W and a voltage of 220–250V.

Their PVC insulation and VDE certification guarantee safety and durability in professional or domestic environments.
